

Tired with using your slow performing desk top creaser?

**CreaseStream** 

Introducing the  
**CreaseStream Card Creaser**

**Now you can crease 6 times faster!**

# An affordable solution that's up to 6 times faster!

Easy to set up and simple to adjust...  
The CreaseStream Card Creaser will revolutionise  
your creasing

It is now possible to manually hand wind up to 2 creases simultaneously through the CreaseStream Card Creaser. This rate easily outperforms the manual hand fed matrix creasing units that are currently on the market. The innovative creasing technology used in the CreaseStream Card Creaser will produce excellent quality creasing that **eliminates fibre cracking 100% or your money back.**

It does this by making use of softer and patented creasing devices that gently manipulate and prepare the area of stock so that cracking does not occur during the folding stage, this will give you the flexibility to produce either 4pp or 6pp book covers, greetings cards, menus, leaflets and brochures etc. Ideally suited for stocks between 120gsm and 350gsm.

## Card Creaser Benefits

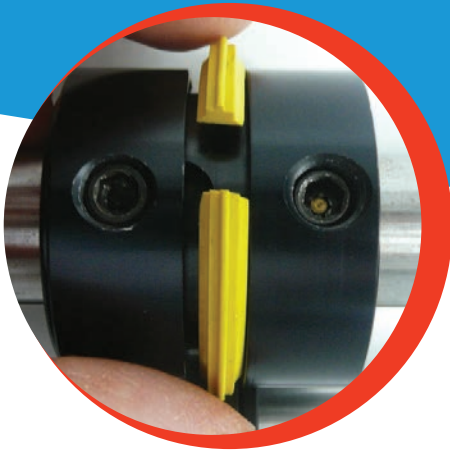

- Outperforms old technology by up to 6 times, **or your money back!**
- Can process over 3000 creases per hour
- Produces a wider range of quality creases on a full range of digital stocks
- Perfect crease registration, every time
- Can apply two creases simultaneously

# Creasing Simplicity

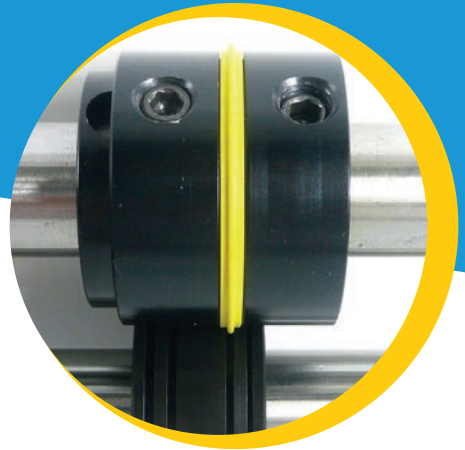

Your CreaseStream Card Creaser is supplied with 2 creasing devices suitable for a range of styles and stock weights. The 4 female channel widths allow a narrow crease for thin papers up to a wide crease for heavy stocks. Simply use the chosen female channel to help guide the yellow creasing rib into place before closing the male collar and fixing it into correct crease position.

## 4 Female Channel Widths

Narrow	100-170gsm
Medium	170-250 gsm
Heavy	250-300 gsm
Extra Heavy	300-350gsm

Attaching creasing rib is simple

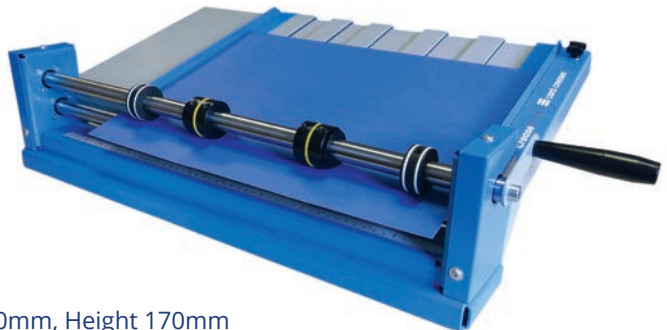

Ready to crease

## Machine Specifications

- **Minimum sheet size:**  
80mm x 120mm
- **Maximum sheet size:**  
520mm x 520mm
- **Stock range:**  
100-350gsm
- **Machine weight:**  
16kg
