

TRIMFAST™

A-FRAME VERTICAL MULTI SUBSTRATE CUTTERS

Trimfast A-Frame Vertical Multi Substrate Cutters are revolutionary vertical cutters that offer a high degree of performance & accuracy.

▲ TFMS-210

NEW FEATURE

All 3 systems can now be extended in width to 275cm/108" with an optional extension arm.

Design and Performance

Affordable

Manufactured in the UK, the Trimfast A-Frame Vertical Multi Substrate Cutters are truly affordable finishing solutions for any sign making business.

Design

The Trimfast A-Frame is designed to cut cleanly and accurately, without dust and without noise. Featuring interchangeable tool cartridges which can be changed in under 10 seconds, you will only need to buy the tools you need. Repeat cuts for production runs are made quick & accurate with the 2 production stops and with the built-in counterbalance, hands are left free for loading material and causing less operator fatigue. The A-Frame also includes end caps on each of the support beams as an added safety feature.

Versatile

The TFMS-TH1 Tool Holder is included as standard and will cut foam board, PVC, corrugated card, polystyrene and any other materials that are commonly cut using a Stanley knife. Optional tool holders are available for cutting aluminium composites, as well as Dibond® & MDF (TFMS-TH2), for 'V' grooving aluminium composites (TFMS-TH3), for scoring acrylics (TFMS-TH4) and scoring glass (TFMS-TH5). The tool holder system means that new tools can be developed for new materials, giving the Trimfast A-Frame Vertical Multi Substrate Cutters virtually unlimited scalability.

The A-Frame cutters include 1 years warranty* as standard.

Specifications

	TFMS-165	TFMS-210	TFMS-250
Height (cm/inches)	165/65	210/83	250/98
Standard width (cm/inches)	213/84	213/84	213/84
Extended width (optional extra)	275/108	275/108	275/108
Warranty*	1 year	1 year	1 year

KEY FEATURES

- Full length clamping system
- Two production stops
- Laser sight line for all materials
- Integral counterbalance

IDEAL FOR CUTTING

- Foam board (13mm)
- PVC (13mm)
- Corrugated card & plastic (13mm)
- Scores acrylic**
- Aluminium composite Panel (4mm)**
- MDF (4mm)**
- Aluminium panel (1.6mm)**

**Optional accessory required

TRIMFAST™

TFMS-210 - ACCESSORIES

INCLUDED AS STANDARD

TFMS-TH1
Tool Holder

TFMS-UB
Utility Blades x 100

Every Trimfast A-Frame Vertical Multi Substrate Cutter includes the **TFMS-TH1 Tool Holder** and 100 Utility Blades as standard.

The TFMS-TH1 features a triple blade system that can cut foam board, PVC, corrugated card & polystyrene.

TFMS-FSK Free Standing Kit (shown with A-Frame)

TFMS-TH2

TFMS-CW

TFMS-TH2 - Aluminium Tool Holder
Cuts aluminium composites, acrylic, dibond & MDF. Includes 2 circular blades as standard.

TFMS-CW - Aluminium Composite Wheel Set
Spare circular blades to be used with the TFMS-TH2 Aluminium Tool Holder.

TFMS-TH3

TFMS-GB

TFMS-TH3 - Aluminium V Groover Tool Holder
Creates 'V' grooves in aluminium composites. Includes 1 groover blade as standard.

TFMS-GB - Aluminium V Groover Blades
Spare V Groover Blades to be used with the TFMS-TH3 Aluminium V Groover Tool Holder. Available in a set of 5.

TFMS-TH4

TFMS-SB

TFMS-TH4 - Acrylic Scoring Tool Holder
The ideal accessory for scoring acrylics.

TFMS-SB - Acrylic Scoring Blades
Spare Acrylic Scoring Blades to be used with the TFMS-TH4 Acrylic Scoring Tool Holder. Available in a set of 10.

TFMS-TH5

AVAILABLE SOON!

TFMS-TH5 - Glass Scoring Tool Holder
Allows you to score then snap glass panels whilst still loaded within the A-Frame.

Specifications	Depth	Accessory
